Capital Expenditures	(6.5)
Debt Repayment	(2.8)
Net Change in Cash	9.9

Management Commentary

Second quarter performance remained under pressure as higher fuel, lease, and labor costs continued to outpace revenue growth. Operating cash flow remained positive; however, EBITDA compression resulted in a Debt Service Coverage Ratio below the minimum covenant threshold. Management has initiated cost control and cash acceleration measures expected to support gradual improvement in the second half of 2024.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. GAAP and are presented on a consolidated basis. These interim financial statements are reviewed but unaudited.
